### **MISSION:**

We will provide responsive municipal services and manage public assets to enhance the quality of life for our community while respecting our rich environmental resources.

September 21, 2017

Honorable Mayor and  
Members of the City Commission

RE: Fiscal Year 2017-2018 Budget

I would like to present the Fiscal Year 2017-2018 proposed budget for your review and consideration. It is a balanced budget that proposes revenues and expenditures totaling \$4,493,300, which is an increase of 8.64% (\$357,429) from the Fiscal Year 2016/2017 Budget. This is a plan for provision of public funds in Polk City for the fiscal year beginning October 1, 2017. It has been developed in accordance with all City Ordinances, State and Federal laws, and policies and procedures of the City. The budget is a result of the most recent workshop held with the City Commission.

The proposed budget has been prepared with the goal of preparing for the future of Polk City, including taking back Water and Wastewater Operations, order to maintain a high level of service to our community, but commensurate with financial resources available to fund those services, and with realistic budget requests for expenditures and conservative estimates on revenue. The following standard guidelines and criteria have been used in preparation of this budget:

- Provide high quality services while maintaining a fiscally responsible government.
- Continue establishing the credibility of Polk City as a viable community with a strong future.
- It is the goal to maintain or increase the unrestricted reserve fund balance thereby placing the City in a better position to fund needed improvements and unforeseen expenses.

### **Tax Base and Millage Rate**

Polk City 2017 gross taxable value has been estimated by the Polk County Property Appraiser to be \$82,695,844. This is an increase from prior year's final gross taxable value of \$72,313,043, which is approximately a 14% increase. Last year the City's millage rate was 8.0000 per \$1,000 of assessed value. The FY 2017-2018 Budget is

based on a millage rate of 7.4877 mills, which is the rolled-back rate. This will generate \$588,241 in Ad Valorem proceeds, resulting in an increase of \$45,198 from the budgeted amount for Fiscal Year 2016/2017. Based on that millage rate and assuming a home assessed at \$100,000, which claims the maximum allowable \$50,000 Homestead Exemption, the property owner would pay \$374.39 annually in Ad Valorem taxes.

Notable highlights for the FY 2017-2018 Budget include:

- The City will be refinancing the USDA Loan with a 15 year term, which will result in an increase of annual payments of \$14,779
- The City will be refinancing the 2011 Water/Wastewater Bonds, which will lower the annual payments by approximately \$40,000
- Beginning January 1, 2018, the City will take over operations of the Water and Wastewater Utilities
- The Relocation of the SR 33 Sprayfield to the Sand Mine has been approved
- Annual payment for new software and payment for conversion/installation for one year
- Capital Projects/Improvements total \$269,884
- Restricted Reserves and Unrestricted Reserves is \$527,712
- Public Works / Utilities Facility is in the budget

### **Major Funds**

General Fund. The General Fund is the principal fund of the City and is used to account for all activities not included in other specified funds. It accounts for the normal, recurring activities of the City. Activities of this fund are primarily supported by City Ad Valorem revenues/taxes and Intergovernmental revenues. The General Fund is proposed at \$2,166,325 (increase of \$192,839)

Enterprise Fund. The Enterprise Fund is the general expenditure and profit making fund of the City that includes water and wastewater revenues and expenditures. The Utility Fund is proposed at \$2,326,975 (increase of \$164,590)

### **Capital Improvement Plan**

This budget includes a two-year Capital Improvement Plan; however, the total for fiscal year 2017-2018 is \$269,884. Staff is working on an updated five year CIP to identify and plan for major capital improvements so these major expenses can be properly planned for and funded. Many grant applications receive additional credit based upon approval of a Capital Improvement Program.

### **Debt Service**

The debt service for Fiscal Year 2017 totals \$990,831; the amortization schedules for all long-term debt are attached for your review as well.

### **Budget Conclusion**

It is the role and responsibility of staff to present a balanced budget to the City Commission. Staff recognizes a budget is simply a plan for expenditures for the next fiscal year, and understands it may be amended as we go through the fiscal year. Staff and I look forward to working with you.

Every municipal budget indicates what areas and functions of government will be funded and what areas and functions will not be funded. It is therefore in reality a policy document. This is consistent with the policy role of the elected body in the Commission Manager form of Government.

As always, all City Departments put forth much effort in the preparation of this document and are to be commended.

We look forward to assisting you in the review process of the Fiscal Year 2017-2018 budget, as well as an ongoing review once the budget is adopted.

Respectfully submitted,

## Polk City Budget Worksheet

**Fund: General**

**Department: 511 - Legislative**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

## Polk City Budget Worksheet

**Fund: General**

**Department: 534 - Refuse/Sanitation**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

## Polk City Budget Worksheet

**Fund: General**

**Department: 541 - Roads and Streets**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

## Polk City Budget Worksheet

**Fund: General**

**Department: 574 - Special Events**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

## Polk City Budget Worksheet

**Fund: Enterprise**

**Department: 533 - Water Operations**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

**Polk City Budget Worksheet**

**Fund: Enterprise**

**Department: 590 - Non-Departmental**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

## Polk City Budget Worksheet

**Fund: Enterprise**

**Department: 590 - Non-Departmental**

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a eight-digit number. The first two digits indicate the fund, and the next set of three digits represent the department, and the last three digits represent the expense code or object classification code. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City.

**Audit Notes to Long-Term Obligations Table:**

**Governmental Activities:**

- 1) Series 2007 Revenue Bonds – The USDA Rural Utilities Service Series 2007 Revenue Bonds are secured primarily by the communication services tax and the half cent sales tax. The Series 2007 bonds bear interest at 4.125% with a final maturity of December 1, 2023. The bond proceeds were used to retire the Series 2006 Capital Improvement Revenue Bond Anticipation Note which was used to construct the new City administration facilities. The Series 2007 bonds require the maintenance of sinking and reserve funds.
  
- 4) 2014 Water Meter Replacement Program - This master lease purchase agreement bears interest at 2.79%. This purchase is for 501 water meters, 200 registers, a Toughbook laptop, and Masterlink Vehicle Reading Software. This purchase agreement is secured by the Enterprise Fund water and wastewater revenue.

# BUDGET LINE ITEM

## DESCRIPTIONS

**Polk City**  
*Budget Line Item Descriptions*

The City of Polk City uses the line item budget format in order to present a detailed and accurate classification of revenues and expenditures. The City's numbering system for revenues and expenditures is comprised of a fifteen-digit number. The first three indicate the fund, and the second three digits represent the department, the third three represent the category of expense, and the fourth three indicate the expense code or object classification code. The fifth three are zero filled and are for system purposes only. The object classification code is standard throughout the chart. For example, the travel and training line item is 400 in all departments and across all funds. While the majority of these numbers may be used in most departments, we still have some unique numbers due to special events and services that are important to our City. Listed below is the description of the individual account numbers for the expenditures in our chart of accounts.

Line Item #	Line Item Name	Description
<b>Personnel Expenses</b>		
110	Executive Salaries	Legislative Salaries. This line is for the salary expense of elected officials.
120	Regular Salaries – Wages	Full-time, part-time, and prorated portions of the costs for work performed by employees of the government. The combined salary line items represent approximately 50% of the total operating budget excluding capital.
130	Other Salaries and Wages	Full-time, part-time, and prorated portions of the costs for work performed by temporary or seasonal employees of the government.
140	Overtime	Amounts paid to employees of the government in either temporary or permanent positions for work performed in addition to the normal work period for which the employee is compensated.
160	Bonuses and Gift Certificates	Gift certificates provided by the City to council and employees at Christmas and Thanksgiving.
210	FICA Taxes	The City's portion of the matching share of Social Security and Medicare tax.
220	Retirement Contribution	The City funded retirement contribution for the employees into the Florida Retirement System. The retirement plan is non-contributory and requires 6 years of service to be vested. The cost of retirement benefits fluctuates and is dependant on the rate set by the retirement system. Under the rules of the retirement system, the City begins contributing for each permanent employee immediately upon employment.
230	Life & Health Insurance	The City's share of the employee health, life, dental, accidental death and dismemberment and short-term disability insurances. The City's insurance is obtained through United Health Care and managed by Colonial Health. Because the City is such a small group health insurance is extremely expensive. In addition, there is not an across-the-board rate for the employees. Each employee is rated separately producing different premiums for each employee. In 2003-2004, the employees began paying 20% of the insurance costs. Last year, due to rising insurance costs, the City chose a different coverage plan, which is a flat rate per employee regardless of coverage cost. That plan continues this year regardless of increases in insurance costs.
240	Worker's Compensation	Amounts paid by the City to provide compensation to employees injured on the job. The City Belongs to PIGT, which is currently serviced by Brown and Brown Insurance. The rates are determined by applying a factor to a particular job function and multiplying it by the payroll estimates for that function. Worker's compensation has increased drastically since 1999. The largest single jump was in 2002, reflecting the tragedy of September 11, 1991. Polk City has been fortunate in that we have not had an on the job injury for several years.
