Polk City Library

Book Club will resume on Tuesday, September 15, 2015 at 6:00 pm. Over the summer, we've read " *Gone With The Wind*" by Margaret Mitchell. Please stop in and request a copy of the book.

Story Time for preschoolers will resume on Thursday, September 17, 2015 at 11:00 am.

October is going to be *Teen Read Month*. Come in to register and every time you read a book, your name will be entered for a drawing to win a tablet. You must be registered!

Seek the Leak Tips

Showers

Check for leaks - Dripping showerheads can waste from 70 up to several hundred gallons of water a week, depending on the size of the drip. If the showerhead is leaking, make sure it is screwed tightly. Also, remember to check the washer for wear. If you need a new washer, you can get one at your local hardware store or from your plumber.

Install low-flow - By timing your shower to less than five minutes and installing low-flow showerheads, you can save water. The older the showerhead, the more water it uses. New low-volume showerheads deliver 2.5 gallons of water per minute. Older high-volume fixtures can deliver as much as 4 gallons per minute. Pressures have been adjusted to the low-flow fixtures to deliver as good a shower as the higher flow showerheads. To install a new showerhead, follow the directions above for fixing showerhead leaks.

***If you have community activities or news that would be of interest to the Polk City service area, please contact Sheandolen Dunn – sheandolen.dunn@mypolkcity.org – 863-984-1375, extension 238.
