

Job Description for Water/Wastewater Plant Operator (Full-Time)

Under the direction of the Public Works/Utilities Director and/or Chief Operator, performs duties necessary to support the Utilities Department to ensure the proper operation and maintenance of the Water Treatment Systems and equipment within the appropriate Local, State and Federal regulatory guidelines.

ESSENTIAL DUTIES

1. Duties include, but are not limited to, monitoring and sampling, administering treatment processes, conduct lab tests, sample analysis, running tests on various equipment, cleaning bottles for the auto sampler, and determining test results.
2. Performs duties necessary to monitor and adjust system flows, treatment process conditions and storage levels by monitoring the status of the production, storage and delivery systems. Duties include maintaining system reports and records by preparing and logging daily reports into the computer system. Responsible for reading and interpreting meters and gauges on central control panel or at individual machines or stage in treatment process, and appropriately adjusts controls.
3. Responsible for maintaining and cleaning plant and plant equipment, and cleaning lab counters and floors. Duties include, but are not limited to, grounds maintenance, and basic pump and motor maintenance. May assist and/or be cross-trained in pump and motor repair, maintenance and installation.
4. Attends training classes as required by the State of Florida and as is commensurate with the appropriate level of State licensure for the performance of job duties.
5. Performs additional duties as assigned.
